ACTION
Elements of change

WHY are we doing this?
Untethered from...
Inevitability

From a workplace....

...to places of work
Historicity

From patterns....
...to emergence
From personal output... to collective value
Monotony

From unquestioning routine....
...to beneficial purpose
Centricity

From transient cities...
...to sustainable communities
Gluttony

From starting with full....
...to building from zero
Frivality

From design to fill a void....
...to design to fulfil a need
Places of work

Design for need

Build from zero

Sustainable communities

Emergence

Collective value

Critical purpose
CHANGE IS LITERALLY EVERYTHING
